Mostyn Harbour Operations – Dredging

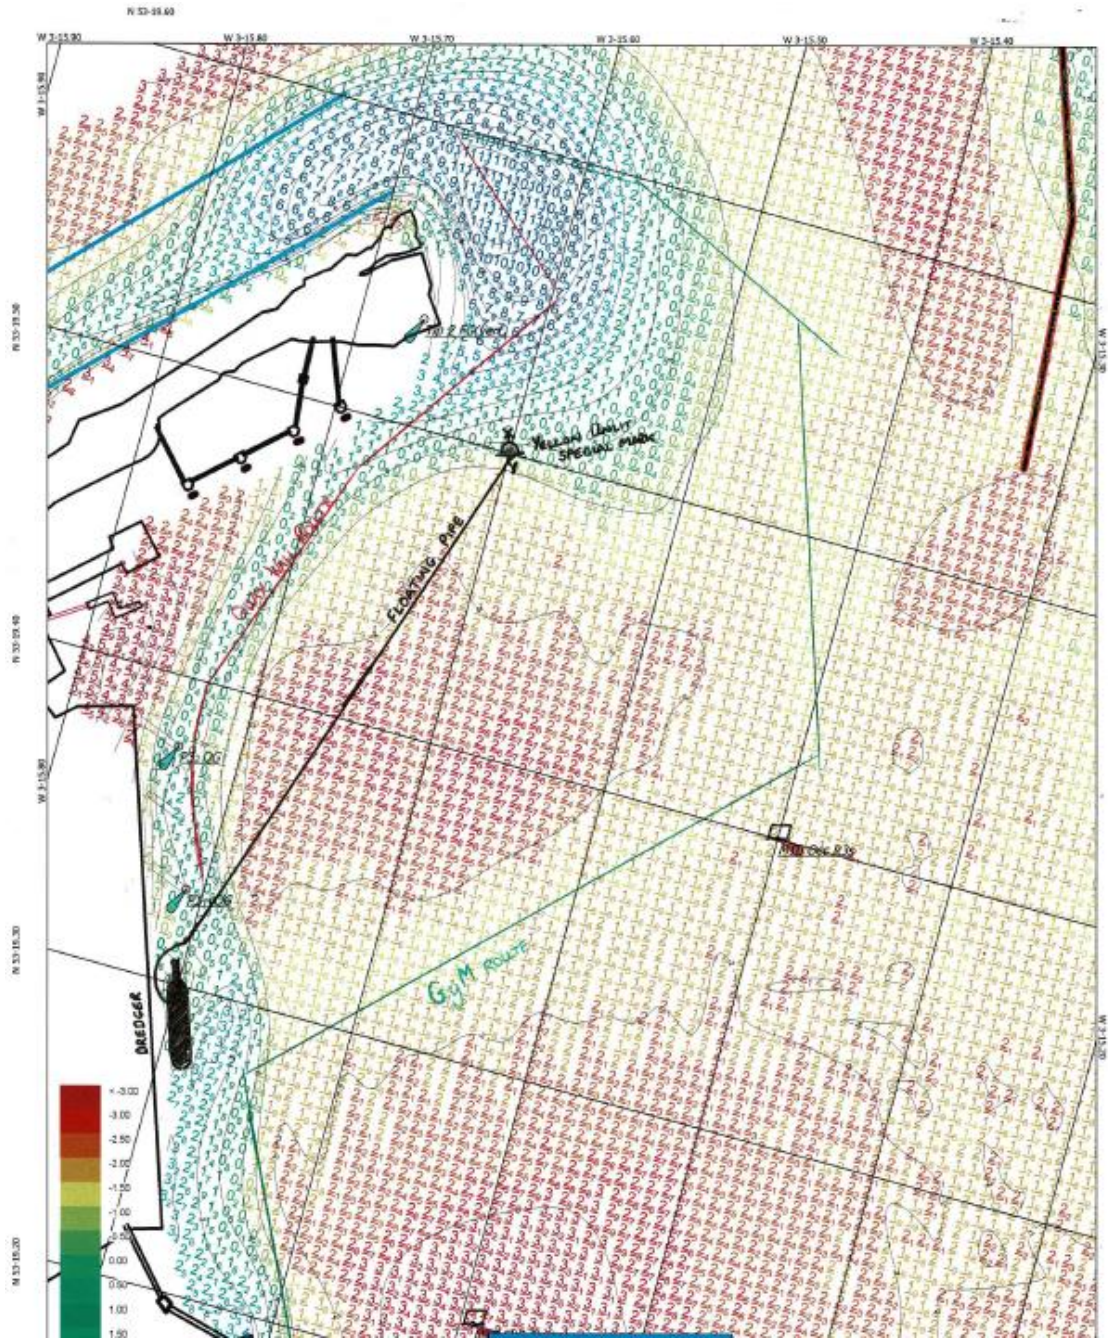

The Gwendoline cutter suction dredger will begin dredging alongside the length of the quay wall Monday 21st June 2021.

The Dredger will have a floating fixed pipe from the dredgers portside leading across bug bank with the discharge end anchored to the bottom approximately 100m from the tip end and with a yellow unlit special mark at the pipeline end. The length of pipeline is marked with yellow floats.

This work is anticipated to last approximately 3 weeks, during such time the vessels using the quay wall pontoons will need to follow the route as per chart below, likewise the G-y-M vessels will need to use the bug bank channel.

The dredger will be manned during dredging operations and can be contacted on VHF Ch.14.

This LNtM will self-cancel on completion of the work.

IF REQUIRED, COPIES OF THESE NOTICES MAY BE OBTAINED FROM THE HARBOUR MASTERS OFFICE AT THE ABOVE ADDRESS OR DOWNLOADED FROM THE PORTS WEB SITE.

Capt. R. Jackson
Harbour Master/Pilot
